

The ACT Association is pleased to offer Michigan ACT Providers the following trainings for October 2009 through September 2010

These trainings are supported by block grant funds from the Substance Abuse and Mental Health Services Administration, Center for Mental Health Services, through the Michigan Department of Community Health.

Trainings are FREE to all Michigan ACT providers.

These trainings are approved as MDCH ACT specific and attendance will meet the MDCH requirement that ACT providers attend an ACT specific training annually. While the MDCH has contracted with ACTA for nearly a decade to train Michigan ACT providers, ACTA does not establish the training requirements. Questions about the MDCH training requirements should be directed to Alyson Rush at the MDCH, rusha@michigan.gov

The following are brief summaries of the ACT Association trainings 2009-2010. This calendar is provided as a guideline to help people consider in advance which trainings they might like to attend, and as such is subject to change. The calendar does not include registration pages. Before each training, the ACT Association will send more detailed descriptions of the trainings via email to all Michigan ACT providers along with information about continuing education credits, trainers, and specific locations; these notifications will include registration forms and instructions for registering. To ensure receipt of these notifications, all Michigan providers should make sure that the ACT Association has current and functional email addresses.
